

KRISHNA PASWAN

AI & Tech Intern | Python • FastAPI • Automation • AI-Assisted Development

Mumbai, India (Open to 100% Remote) | +91 82917 37832 | kpaswan9999@gmail.com | LinkedIn | GitHub | Portfolio

PROFILE SUMMARY

Hands-on AI builder and Certified Data Scientist (Imarticus Learning) with a BSc IT (2025), experienced in shipping **Generative AI** products with **Python, FastAPI, Gemini API, LangChain, FAISS and Next.js** and deploying them live on **Vercel**. Top 15 Finalist among 16,000+ teams at AI for Bharat Hackathon 2026. Actively building skills in **Open-Source AI, LoRA fine-tuning, CivitAI, Model Context Protocol, Social Media APIs, AI Video Generation, Cybersecurity and Ethical Hacking**. Available immediately for a 100% remote internship; open to future relocation to Europe or the UK.

TECHNICAL SKILLS

Languages & Frameworks	Python (Pandas, NumPy), FastAPI, Next.js, SQL, MySQL
Generative AI	Generative AI, Gemini API, LangChain, FAISS, Prompt Engineering, AI-Assisted Coding
Open-Source AI	Open-Source AI, LoRA Fine-tuning (LoRAs), CivitAI
AI Content Creation	AI Video Generation, AI Audio Generation
Automation & APIs	Automation, Automated Workflows, Social Media APIs, Model Context Protocol (MCP)
Cybersecurity	Cybersecurity Fundamentals, Ethical Hacking
Tools & Deployment	Git, GitHub, Deployment, Vercel, Jupyter Notebook, VS Code
Data & Analytics	Excel, Power BI, DAX, Tableau, Exploratory Data Analysis (EDA), Data Cleaning, Data Validation
Professional Skills	Cross-functional Collaboration, Documentation, Written & Verbal Communication

AI & SECURITY UPSKILLING (IN PROGRESS)

- **Open-Source AI, LoRA & CivitAI:** Learning LoRA fine-tuning of open-source image models and the CivitAI platform for custom AI content generation.
- **Model Context Protocol (MCP):** Learning to connect AI models to external tools and automated workflows using Model Context Protocol servers.
- **Social Media APIs:** Exploring Social Media APIs (YouTube, Instagram, TikTok) to automate content publishing and analytics workflows.
- **AI Video Generation:** Experimenting with AI Video Generation and AI audio tools for short-form content creation.
- **Cybersecurity & Ethical Hacking:** Building Cybersecurity foundations, including ethical hacking and secure application practices.

PROJECTS

HireResumeAI — AI-Powered Resume Optimizer & ATS Analyzer / FastAPI • Gemini API • LangChain • FAISS • Next.js • Python

- Designed, built and deployed an AI-powered Applicant Tracking System (ATS) analyzer that helps job seekers optimize resumes for specific job descriptions.
- Built a FastAPI backend integrating the Gemini API via LangChain, with FAISS vector search, to generate match scores, skill gap analysis, rewrite suggestions and interview preparation questions.
- Developed the Next.js frontend with template selection and automated the resume analysis workflow end to end and shipped the product to production on Vercel.
- Live: hire-resume-ai.vercel.app

Raksha AI – Women's Emergency Command Center / National Hackathon Finalist • AI for Bharat 2026

- Top 15 Finalist among 16,000+ teams nationwide; invited to the onsite Grand Finale in Bangalore.
- Collaborated with a cross-functional product team on feature development, testing and issue resolution for an AI-driven women's safety application.
- Assisted in testing and validating data flows for real-time alert and location-tracking features under tight hackathon deadlines.
- Contributed to issue triage, documentation and feature refinement during the final sprint ahead of the finale presentation.
- Live: raksha-ai-command-center.vercel.app

Indian Domestic Flight Analysis / SQL · Python · Power BI

- Validated and analyzed flight booking data to uncover fare trends, travel demand and booking behavior, presenting findings in an interactive dashboard.

Supermarket Sales Analysis Dashboard / Advanced Excel

- Built an interactive Excel BI dashboard analyzing 1,000+ retail transactions to uncover revenue trends, using Pivot Tables, dynamic Slicers and GETPIVOTDATA for multi-dimensional filtering.
- Designed KPI cards and clear visualizations that turned raw retail data into actionable business insights.

AWARDS & ACHIEVEMENTS

- **Top 15 Finalist** — AI for Bharat Hackathon 2026, among 16,000+ teams nationwide | Onsite Grand Finale, Bangalore
- **Top 5 Finalist** — Nebulon Hackathon 2026, TransStadia Institute, Mumbai University
- **Ranked 18th** — FAR AWAY International Hackathon, organized by Chandigarh University

EDUCATION

Post Graduate Program in Data Science & Analytics — Imarticus Learning, Thane	2025 – 2026
Bachelor of Information Technology — Rajiv Gandhi College, Mumbai CGPA: 8.27	2025

CERTIFICATION

- **Certified Data Scientist Professional** — Imarticus Learning, Thane
- Statistics Fundamentals · Data Science with Python · Machine Learning & Deep Learning · SQL Programming · Data Visualization with Tableau and Power BI
